

Cloud Migration for Medium-Sized Manufacturing Company

Challenge

A medium-sized manufacturing company needed to separate from its corporate group and update its outdated, costly on-premises IT infrastructure with limited scalability. The goal was a flexible, modern work environment.

Solution

AWES GmbH recommended a cloud migration, executed in phases:

- Discovery: Feasibility and benefits were demonstrated.
- Cloud Migration: Essential services moved to AWS cloud-based environment.
- Operations: AWES GmbH partially took over ongoing operations, monitoring, and support, achieving technological improvements and cost savings.

Result

- 250 users & IT infrastructure was migrated smoothly with minimal disruption.
- The collaboration with AWES GmbH led to an efficient transformation, resulting in a scalable, flexible, and future-proof IT environment.
